

FIIWE BARISANEM

Summary

I'm a Frontend Developer with over 4 years of experience building fast, responsive, and scalable web applications using React, Next.js, and modern JavaScript tools. I enjoy solving complex UI problems, writing clean code, and collaborating with teams to turn ideas into user-friendly products. I'm always exploring new technologies to build better web experiences and contribute meaningfully to team success.

Skills

React • JavaScript • HTML5 • CSS3 • Tailwind CSS • Next.js • Redux • Bootstrap • Git
Cypress • Vitest • Figma • Test automation & debugging
Strong communication & teamwork • Project planning & prioritization
MS Office Suite • Google Workspace

Experience

Front-End Developer (Remote)

OneCart.UK

09/2025 – Current - Built and optimized a scalable e-commerce application using **Next.js** - Improved performance by creating **reusable UI components** and implementing **lazy loading** - Managed global state and server data efficiently using **Redux Toolkit Query (RTK Query)** - Collaborated with product, design, and backend teams to deliver high-performance, conversion-focused shopping experiences - Implementing responsive, user-friendly components optimized for conversion and performance

Front-End Developer (Hybrid)

KodeHauz

01/2023 – Current - Improved code scalability and reusability through componentization and Cypress test coverage - Contributed to a 40% increase in client service delivery and production efficiency - Created modular and reusable UI components, enhancing development velocity

Remote Front-End Developer (React.js)

iHealth and Wellness Foundation

01/2022 – 01/2023 - Collaborated with UI/UX designers and back-end developers to implement dynamic features - Performed thorough testing using Vitest and Cypress to ensure cross-browser compatibility

Remote Front-End Developer (React.js)

KodeCamp

01/2019 – 01/2022 - Developed responsive web interfaces using React, HTML, CSS, and JavaScript - Built and maintained reusable UI libraries to streamline project delivery - Participated in requirements gathering, code reviews, and team mentorship - Offered design feasibility insights and stayed current with evolving front-end trends

Front-End Developer (Vue.js)

WeDance

01/2018 – 01/2019 - Built responsive websites using Vue.js, HTML, CSS, and JavaScript - Worked closely with stakeholders to align technical solutions with business needs - Implemented SEO and performance optimization strategies

Front-End Developer Intern

Media City Communications

01/2016 – 01/2018 - Introduced mobile-first design strategies, increasing mobile traffic by 50%

Education and Training

Bachelor of Science (BSc): Computer Science

Babcock University

Second Class Upper Division
